Publishing, Subscription and Advertising Offices
Pergamon Journals Ltd, Headington Hill Hall, Oxford OX3 0BW, U.K.
Pergamon Journals Inc., Maxwell House, Fairview Park, Elmsford, NY 10523, U.S.A.

Annual Institutional Subscription rate (1988): U.S. $200.00.

Two-year Institutional rate (1988/89): U.S. $380.00.

Personal subscription rate for those whose library subscribes at the regular rate (1988): U.S. $65.00.

Prices are subject to change without notice.

Microform Subscriptions and Back Issues

Subscription enquiries from customers in North America should be sent to: Pergamon Journals Inc., Maxwell House, Fairview Park, Elmsford, NY 10523, U.S.A., and for the remainder of the world to: Pergamon Journals Ltd, Headington Hill Hall, Oxford OX3 0BW, U.K. Back issues of all previously published volumes are available in the regular editions and on microfilm and microfiche. Current subscriptions are available on microfiche simultaneously with the paper edition and on microfilm on completion of the annual index at the end of the subscription year.

Published Quarterly Copyright © 1987 Pergamon Journals Ltd

It is a condition of publication that manuscripts submitted to this journal have not been published and will not be simultaneously submitted or published elsewhere. By submitting a manuscript, the authors agree that the copyright for their article is transferred to the publisher if and when the article is accepted for publication. However, assignment of copyright is not required from authors who work for organizations which do not permit such assignment. The copyright covers the exclusive rights to reproduce and distribute the article, including reprints, photographic reproductions, microform or any other reproductions of similar nature and translations. The Item-Fee Code for this publication is: 0098-8472/87 $3.00 + 0.00

CONTENTS VOLUME 27

NUMBER 1

C. A. Croci, J. A. Argüello and G. A. Orioli	1	Effect of gamma rays on seed cloves of garlic (*Allium sativum* L.) at post-harvest: reversion by exogenous growth regulators
E. J. Pell, C. J. Arny and N. S. Pearson	7	Impact of simulated acidic precipitation on quantity and quality of a field grown potato crop
J. G. Willemoës, J. Beltrano and E. R. Montaldi	15	Stolon differentiation in *Cynodon dactylon* (L.) pers. mediated by phytochrome
A. Conter, D. Dupouy, M. Murat and H. Planel	21	Influence of 'age', physiological state and light level on the sensitivity of *Synechococcus lividus* to hydrogen peroxide
M. A. Chaudhry, S. Yoshida and B. S. Vergara	29	Induced variability for salt tolerance in rice (*Oryza sativa* L.) after *N*-methyl-*N*-nitrosourea treatment of fertilized egg cells
M. A. Chaudhry, S. Yoshida and B. S. Vergara	37	Induced mutations for aluminum tolerance after *N*-methyl-*N*-nitrosourea treatment of fertilized egg cells in rice (*Oryza sativa* L.)
J. C. V. Vu, M. G. Bausher and G. Yelenosky	45	Activity of ribulose-1,5-bisphosphate carboxylase in the leaf tissues of blight-affected 'Valencia' orange trees (*Citrus sinensis* (L.) Osbeck)
D. L. Tao, Z. B. Xu and X. Li	53	Effect of litter layer on natural regeneration of companion tree species in the Korean Pine Forest
Z. Czuchajowska	67	Influence of zinc smelter emissions on leaves of *Pinus sylvestris* and *Vaccinium* species as revealed by some morphological and ecophysiological indices
A. Conter	85	Changes in protein content during growth phases under chronic gamma irradiation at a low dose-rate in *Synechococcus lividus* in culture
R. J. Bennet, C. M. Breen, and M. V. Fey	91	The effects of aluminium on root cap function and root development in *Zea mays* L.
E. P. Eleftheriou	105	A comparative study of the leaf anatomy of olive trees growing in the city and the country
K. Mahmood and K. A. Malik	119	Salt tolerance studies on *Atriplex rhagodioides* F. Muell.
Software Survey Section	I	

NUMBER 2

J. Garty and K. Ammann	127	The amounts of Ni, Cr, Zn, Pb, Cu, Fe and Mn in some lichens growing in Switzerland
L. Grant, C. S. T. Daughtry and V. C. Vanderbilt	139	Polarized and non-polarized leaf reflectances of *Coleus blumei*
K. L. McKee and I. A. Mendelssohn	147	Root metabolism in the black mangrove (*Avicennia germinans* (L.) L): response to hypoxia
T. Scherbatskoy, R. M. Klein and G. J. Badger	157	Germination responses of forest tree seed to acidity and metal ions
K. R. Chandorkar and N. G. Dengler	165	Effect of low level continuous gamma irradiation on vascular cambium activity in Scotch pine *Pinus sylvestris* L.
R. J. Walter, Jr., M. W. Berns, J. Arditti and L. P. Nyman	177	Measurement of plant cells and organelles using computer-enhanced digitally processed images

M. Dijak, D. L. Smith and D. P. Ormrod 185 Effect of growth light quality on fluorescence characteristics of leaves of *Glycine max*

L. Fraley, Jr. 193 Response of shortgrass plains vegetation to gamma radiation—III. Nine years of chronic irradiation

S. A. Ibrahim and F. W. Whicker 203 Plant accumulation and plant/soil concentration ratios of ^{210}Pb and ^{210}Po at various sites within a uranium mining and milling operation

W. F. DeBusk and K. R. Reddy 215 Growth and nutrient uptake potential of *Azolla caroliniana* Willd. and *Salvinia rotundifolia* Willd. as a function of temperature

R. W. Zobel 223 Gaseous compounds of soybean tissue cultures: carbon dioxide and ethylene evolution

J. Moutschen, J. Gilot-Delhalle and M. Moutschen-Dahmen 227 Clastogenic effects of benzodiazepines in a *Nigella damascena* seed test

M. I. Giménez-Abian, C. de la Torre and J. F. López-Sáez 233 Growth and cell proliferation in *Allium* roots at different oxygen tensions

R. L. Olson, Jr., W. E. Winner and L. D. Moore 239 Effects of 'pristine' and 'industrial' simulated acidic precipitation on greenhouse-grown radishes

Software Survey Section I

NUMBER 3

L. P. Nyman, R. J. Walter, R. D. Donovan, M. W. Berns and J. Arditti 245 Effects of artificial seawater on the ultrastructure and morphometry of taro (*Colocasia esculenta*, Araceae) cells *in vitro*

P. L. Webster and M. Henry 253 Sucrose regulation of protein synthesis in pea root meristem cells

A. M. Castro and C. P. Rumi 263 Greenbug damage on the aerial vegetative growth of two barley cultivars

A. Cuadrado, J. L. Cánovas and M. H. Navarrete 273 Influence of cell size on differentiation of root meristem cells

J. C. V. Vu and G. Yelenosky 279 Photosynthetic characteristics in leaves of 'Valencia' orange (*Citrus sinensis* (L.) Osbeck) grown under high and low temperature regimes

L. W. Roberts and S. Baba 289 Evidence that auxin-induced xylogenesis in *Lactuca* explants requires calmodulin

K. U. Pai and B. K. Gaur 297 Gamma-ray-induced biochemical changes in the outer mitochondrial membrane from kidney bean hypocotyls

R. Kappler and U. Kristen 305 Photometric quantification of *in vitro* pollen tube growth: a new method suited to determine the cytotoxicity of various environmental substances

G. Chawla, P. N. Viswanathan and S. Devi 311 Biochemical studies on the toxicity of linear alkylbenzene sulphonate to *Scenedesmus quadricauda* in culture

P. F. Waldron and L. E. Craker 325 The development of a pollen dispersal system

F. Yamamoto and T. T. Kozlowski 329 Regulation by auxin and ethylene of responses of *Acer negundo* seedlings to flooding of soil

I. A. Trautmann and J. H. Visser 341 *In vitro* seedling growth of the root parasites *Alectra orobanchoides* and *Alectra vogelii* Benth.

O. KLEMM, M. RIEDERER and T. FREVERT 349 pH-response on leaves and isolated cuticles of *Hedera helix* L. after wetting with artificial rainwater

R. A. ARMSTRONG 357 Dispersal in a population of the lichen *Hypogymnia physodes*

Software Survey Section I

NUMBER 4

G. W. KOCH, W. E. WINNER, A. NARDONE and H. A. MOONEY 365 A system for controlling the root and shoot environment for plant growth studies

D. O. GIMÉNEZ and C. P. RUMI 379 *Bromus unioloides* H. B. K. main shoot development under different photoperiods and night temperatures

E. DEL GROSSO, S. GRAZIA and A. C. MARALDI 387 Peroxidase activity in *Phaseolus vulgaris* seedling tissues and callus cultures: a comparison of genotypes and developmental stages

D. T. DUBAY and A. S. HEAGLE 395 The effects of simulated acid rain with and without ambient rain on the growth and yield of field-grown soybeans

E. J. PELL and M. PUENTE 403 Impact of simulated acid rain on yield of a field-grown oat crop

P. J. TEMPLE, R. W. LENNOX, A. BYTNEROWICZ and O. C. TAYLOR 409 Interactive effects of simulated acidic fog and ozone on field-grown alfalfa

C. M. LEACH 419 Diurnal electrical potentials of plant leaves under natural conditions

Y. KOWYAMA, M. SAITO and T. KAWASE 431 Intervarietal variations in radiosensitivity of dry rice seeds irradiated with sparsely and densely ionizing radiation

E. L. JOHNSON, W. W. HECK, R. C. FITES and U. BLUM 441 Effects of irradiance on amino and organic acid levels in ladino clover

R. HEWAMANNA, R. A. G. RANAWAKE and C. M. SAMARAKOON 449 Gamma activity of plants from monazite-bearing soils of the West Coast of Sri Lanka

R. N. ORAM, M. A. Q. SHAIKH, K. M. S. ZAMAN and A. H. D. BROWN 455 Isozyme similarity and genetic differences in morphology between Hyprosola, a high yielding, high protein mutant of chickpea (*Cicer arietinum* L.) and its parental cultivar

W. A. TRAMONTANO, F. M. GALLOUSIS and D. A. PHILLIPS 463 The effect of inhibitors and promoters of poly(ADP-ribosyl)ation on cell arrest in G2 caused by trigonelline in roots of *Pisum sativum*

W. K. VENCILL, C. L. FOY and D. M. ORCUTT 473 Effects of temperature on triazine-resistant weed biotypes

L. TÖRNQVIST and A. CLAESSON 481 The influence of aluminum on the cell-size distribution of two green algae

F. C. THORNTON, M. SCHAEDLE and D. J. RAYNAL 489 Effects of aluminum on red spruce seedlings in solution culture

B. L. MCMICHAEL, J. E. QUISENBERRY and D. R. UPCHURCH 499 Lateral root development in exotic cottons

Software Survey Section I

SUBJECT INDEX

Accumulation
plant, and plant/soil concentration ratios of ^{210}Pb and ^{210}Po at various sites within a uranium mining and milling operation 203
Acer negundo
regulation by auxin and ethylene of responses of seedlings of, to flooding of soil 329
Acid
amino and organic, effects of irradiance on levels of, in ladino clover 441
Acid rain
simulated, the effects of, with and without ambient rain on the growth and yield of field-grown soybeans 395
Acid rain
simulated, impact of, on yield of a field-grown oat crop 403
Acidic fog
simulated, interactive effects of ozone and, on field-grown alfalfa 409
Acidic precipitation
simulated, impact of, on quantity and quality of a field-grown potato crop 7
Acidic precipitation
simulated 'pristine' and 'industrial', effects of, on greenhouse-grown radishes 239
Acidity
germination responses of forest tree seed to metal ions and 157
'Age'
influence of, physiological state and light level on the sensitivity of *Synechococcus lividus* to hydrogen peroxide 21
Alectra orobanchoides
in vitro seedling growth of the root parasites *Alectra vogelii* Benth. and 341
Alectra vogelii Benth.
in vitro seedling growth of the root parasites *Alectra orobanchoides* and 341
Alfalfa
interactive effects of simulated acidic fog and ozone on field-grown 409
Algae
green, the influence of aluminum on the cell-size distribution of two 481
Alkylbenzene sulphonate
linear, biochemical studies on the toxicity of, to *Scenedesmus quadricauda* in culture 311
Allium
growth and cell proliferation in roots of, at different oxygen tensions 233
Allium sativum L.
effect of gamma rays on seed cloves of, at postharvest: reversion by exogenous growth regulators 1
Aluminum
effects of, on red spruce seedlings in solution culture 489
Aluminum
the effects of, on root cap function and root development in *Zea mays* L. 91
Aluminum
the influence of, on the cell-size distribution of two green algae 481
Aluminum tolerance
induced mutations for, after *N*-methyl-*N*-nitrosourea treatment of fertilized egg cells in rice (*Oryza sativa* L.) .. 37
Amino acid
effects of irradiance on, and organic acid levels in ladino clover 441
Anatomy
leaf, a comparative study of the, of olive trees growing in the city and the country 105
Arrest
cell, the effect of inhibitors and promoters of poly (ADP-ribosyl) ation on, in G2 caused by trigonelline in roots of *Pisum sativum* 463
Artificial rainwater
pH-response on leaves and isolated cuticles of *Hedera helix* L. after wetting with 349
Atriplex rhagodioides F. Muell.
salt tolerance studies on 119
Azolla caroliniana Willd.
growth and nutrient uptake potential of, and *Salvinia rotundifolia* Willd. as a function of temperature 215
Auxin
regulation by ethylene and, of responses of *Acer negundo* seedings to flooding of soil 329
Auxin-induced xylogenesis
evidence that, in *Lactuca* explants requires calmodulin 289

Avicennia germinans (L.) L
root metabolism in, response to hypoxia 147
Bar¹ey
greenbug damage on the aerial vegetative growth of two cultivars of 263
Bean
kidney, gamma-ray-induced biochemical changes in the outer mitochondrial membrane from hypocotyls of ... 297
Benzodiazepines
clastogenic effects of, in a *Nigella damascena* seed test 227
Biochemical changes
induced by gamma rays in the outer mitochondrial membrane from kidney bean hypocotyls 297
Biochemical studies
on the toxicity of linear alkylbenzene sulphonate to *Scenedesmus quadricauda* in culture 311
Black Mangrove (*Avicennia germinans* (L.) L)
root metabolism in the, response to hypoxia 147
Blight
activity of ribulose-1, 5-bisphosphate carboxylase in the leaf tissues of, —affected 'Valencia' orange trees (*Citrus sinensis* (L.) Osbeck) 45
Bromus unioloides H.B.K.
main shoot development under different photoperiods and night temperatures 379
Callus
culture, peroxidase activity in *Phaseolus vulgaris* seedling tissues and, a comparison of genotypes and developmental stages 387
Calmodulin
evidence that auxin-induced xylogenesis in *Lactuca* explants requires 289
Cambium activity
vascular, effect of low level continuous gamma irradiation on, in Scotch pine, *Pinus sylvestris* L. 165
Cap
root, the effects of aluminum on function of, and root development in *Zea mays* L. 91
Carbon dioxide
gaseous compounds of soybean tissue cultures:, and ethylene evolution 223
Carboxylase
ribulose-1, 5-bisphosphate, activity of, in the leaf tissues of blight-affected 'Valencia' orange trees (*Citrus sinensis* (L.) Osbeck) 45
Cell arrest
the effect of inhibitors and promoters of poly (ADP-ribosyl) ation on, in G2 caused by trigonelline in roots of *Pisum sativum* 463
Cell size
influence of, on differentiation of root meristem cells 273
Cell-size distribution
the influence of aluminum on the, of two green algae 481
Cells
effects of artificial seawater on the ultrastructure and morphometry of, of taro (*Colocasia esculenta*, Araceae) *in vitro* 245
Cells
measurement of plant organelles and, using computer-enhanced digitally processed images 177
Cells
sucrose regulation of protein synthesis in, of pea root meristem 253
Chickpea (*Cicer arietinum* L.)
isozyme similarity and genetic differences in morphology between Hyprosola, a high yielding, high protein mutant of, and its parental cultivar 455
Citrus sinensis (L.) Osbeck
activity of ribulose-1, 5-bisphosphate carboxylase in the leaf tissues of blight-affected 'Valencia' orange trees ... 45
Citrus sinensis (L.) Osbeck
photosynthetic characteristics in leaves of 'Valencia' orange, grown under high and low temperature regimes ... 279
Clastogenic effects
of benzodiazepines in a *Nigella damascena* seed test 227
Clover
ladino, effects of irradiance on amino and organic acid levels in 441
Coleus blumei
polarized and non-polarized leaf reflectances of 139
Colocasia esculenta, Araceae
effects of artificial seawater on the ultrastructure and morphometry of *in vitro* cells of 245

Companion tree species
effects of litter layer on natural regeneration of, in the Korean Pine Forest 53
Computer-enhanced digitally processed images
measurement of plant cells and organelles using 177
Concentration ratios
plant/soil, and plant accumulation of ^{210}Pb and ^{210}Po at various sites within a uranium mining and milling operation 203
Cottons
exotic, lateral root development in 499
Cr
the amounts of Ni, Zn, Pb, Cu, Fe, Mn and, in some lichens growing in Switzerland 127
Crop
field grown potato, impact of simulated acidic precipitation on quantity and quality of a 7
Cu
the amounts of Ni, Cr, Zn, Pb, Fe, Mn and, in some lichens growing in Switzerland 127
Culture
biochemical studies on the toxicity of linear alkylbenzene sulphonate to *Scenedesmus quadricauda* 311
Culture
changes in protein content during growth phases under chronic gamma irradiation at a low dose-rate in *Synechococcus lividus* in 85
Culture
solution, effects of aluminum on red spruce seedlings in 489
Cultures
callus, peroxidase activity in *Phaseolus vulgaris* seedling tissues and, a comparison of genotypes and developmental stages 387
Cuticles
isolated, pH-response on leaves and, of *Hedera helix* L. after wetting with artificial rainwater 349
Cynodon dactylon (L.) Pers.
stolon differentiation in, mediated by phytochrome 15
Cytotoxicity
photometric quantification of *in vitro* pollen tube growth: a new method suited to determine the, of various environmental substances 305
Development
of a pollen dispersal system 325
Developmental stages
peroxidase activity in *Phaseolus vulgaris* seedling tissues and callus cultures: a comparison of genotypes and 387
Differentiation
influence of cell size, of root meristem cells 273
Differentiation
of stolons in *Cynodon dactylon* (L.) Pers. mediated by photochrome 15
Dispersal
in a population of the lichen *Hypogymnia physodes* 357
Dispersal system
the development of a, for pollen 325
Diurnal electrical potentials
of plant leaves under natural conditions 419
Dose-rate
low, changes in protein content during growth phases under chronic gamma irradiation at a, in *Synechococcus lividus* in culture 85
Ecophysiological indices
influence of zinc smelter emissions on leaves of *Pinus sylvestris* and *Vaccinium* species as revealed by morphological and 67
Egg cells
fertilized, induced mutations for aluminum tolerance after *N*-methyl-*N*-nitrosourea treatment of, in rice (*Oryza sativa* L.) 37
Egg cells
fertilized, induced variability for salt tolerance in rice (*Oryza sativa* L.) after *N*-methyl-*N*-nitrosourea treatment of 29
Electrical potentials
diurnal, of plant leaves under natural conditions 419
Emissions
influence of, from zinc smelters on leaves of *Pinus sylvestris* and *Vaccinium* species as revealed by some morphological and ecophysiological indices 67

Ethylene
gaseous compounds of soybean tissue cultures: carbon dioxide and, evolution 223
Ethylene
regulation by auxin and, of responses of *Acer negundo* seedlings to flooding of soil 329
Explants
evidence that auxin-induced xylogenesis in, of *Lactuca* requires calmodulin 289
Fe
the amounts of Ni, Cr, Zn, Pb, Cu, Mn and, in some lichens growing in Switzerland 127
Fertilized egg cells
induced mutations for aluminum tolerance after *N*-methyl-*N*-nitrosourea treatment of, in rice (*Oryza sativa* L.) 37
Fertilized egg cells
induced variability for salt tolerance in rice (*Oryza sativa* L.) after *N*-methyl-*N*-nitrosourea treatment of 29
Flooding
regulation by auxin and ethylene of responses of *Acer negundo* seedlings to, of soil 329
Fluorescence characteristics
effect of growth light quality on, of leaves of *Glycine max* 185
Fog
interactive effects of simulated acidic, and ozone on field-grown alfalfa 409
Forest
Korean Pine, effect of litter layer on natural regeneration of companion tree species in the 53
Forest tree seed
of germination responses of, to acidity and metal ions 157
Gamma activity
of plants from monazite-bearing soils of the West Coast of Sri Lanka 449
Gamma irradiation
chronic, changes in protein content during growth phases under, at a low dose-rate in *Synechococcus lividus* in culture 85
Gamma irradiation
effect of low level continuous, on vascular cambium activity in Scotch pine, *Pinus sylvestris* L. 165
Gamma irradiation
response of shortgrass plains vegetation to, —III. Nine years of chronic irradiation 193
Gamma-ray -induced biochemical changes
in the outer mitochondrial membrane from kidney bean hypocotyls 297
Gamma rays
effect of, on seed cloves of garlic (*Allium sativum* L.) at postharvest: reversion by exogenous growth regulators .. 1
Garlic (*Allium sativum* L.)
effect of gamma rays on seed cloves of, at postharvest: reversion by exogenous growth regulators 1
Gaseous compounds
of soybean tissue cultures: carbon dioxide and ethylene evolution 223
Genetic differences in morphology
and isozyme similarity between *Hyprosola*, a high yielding, high protein mutant of chickpea (*Cicer arietinum* L.) and its parental cultivar 455
Genotypes
peroxidase activity in *Phaseolus vulgaris* seedling tissues and callus cultures: a comparison of developmental stages and 387
Germination responses
of forest tree seed to acidity and metal ions 157
Glycine max
effect of growth light quality on fluorescence characteristics of leaves of 185
Green algae
the influence of aluminum on the cell-size distribution of two 481
Greenbug
damage on the aerial vegetative growth of two barley cultivars 263
Greenhouse-grown radishes
effects of 'pristine' and 'industrial' simulated acidic precipitation on 239
Growth
aerial vegetative, greenbug damage on the, of two barley cultivars 263
Growth
and cell proliferation in *Allium* roots at different oxygen tensions 233
Growth
and nutrient uptake potential of *Azolla caroliniana* Willd. and *Salvinia rotundifolia* Willd. as a function of temperature 215
Growth
of seedlings *in vitro*, of the root parasites *Alectra orobanchoides* and *Alectra vogelii* Benth. 341

Growth
photometric quantification of, of pollen tubes *in vitro*: a new method suited to determine the cytotoxicity of various environmental substances 305
Growth
the effects of simulated acid rain with and without ambient rain on the yield and, of field-grown soybeans 395
Growth light quality
effect of, on fluorescence characteristics of leaves of *Glycine max* 185
Growth phases
changes in protein content during, under chronic gamma irradiation at a low dose-rate in *Synechococcus lividus* in culture 85
Growth regulators
effect of gamma rays on seed cloves of garlic (*Allium sativum* L.) at postharvest: reversion by exogenous 1
Growth studies
a system for controlling the root and shoot environment for, in plants 365
G2
the effect of inhibitors and promoters of poly(ADP-ribosyl)ation on cell arrest in, caused by trigonelline in roots of *Pisum sativum* 463
Hedera helix L.
pH-response on leaves and isolated cuticles of, after wetting with artificial rainwater 349
Hypocotyls
gamma-ray-induced biochemical changes in the outer mitochondrial membrane from, of kidney bean 297
Hypogymnia physodes
dispersal in a population of the lichen 357
Hypoxia
root metabolism in the black mangrove (*Avicennia germinans* (L.) L): response to 147
Hyprosola
isozyme similarity and genetic differences in morphology between, a high yielding, high protein mutant of chickpea (*Cicer arietinum* L.) and its parental cultivar 455
Inhibitors
the effect of, and promoters of poly(ADP-ribosyl)ation on cell arrest in G2 caused by trigonelline in roots of *Pisum sativum* 463
Ionizing radiation
intervarietal variations in radiosensitivity of dry rice seeds irradiated with sparsely and densely 431
Ions
metal, germination responses of forest tree seed to acidity and 157
Irradiance
effects of, on amino and organic acid levels in ladino clover 441
Isozyme
similarity and genetic differences in morphology between *Hyprosola*, a high yielding, high protein mutant of chickpea (*Cicer arietinum* L.) and its parental cultivars 455
Kidney bean
gamma-ray-induced biochemical changes in the outer mitochondrial membrane from hypocotyls of 297
Korean Pine Forest
effects of litter layer on natural regeneration of companion tree species in the 53
Lactuca
evidence that auxin-induced xylogenesis in explants of, requires calmodulin 289
Ladino clover
effects of irradiance on amino and organic acid levels in 441
Lateral root development
in exotic cottons 499
Leaf
polarized and non-polarized reflectances of, of *Coleus blumei* 139
Leaf anatomy
a comparative study of the, of olive trees growing in the city and the country 105
Leaf tissues
activity of ribulose-1, 5-bisphosphate carboxylase in the, of blight-affected 'Valencia' orange trees (*Citrus sinensis* (L.) Osbeck) 45
Leaves
effect of growth light quality on fluorescence characteristics of, of *Glycine max* 185
Leaves
pH-response on, and isolated cuticles of *Hedera helix* L. after wetting with artificial rainwater 349
Leaves
photosynthetic characteristics in, of 'Valencia' orange (*Citrus sinensis* (L.) Osbeck) grown under high and low temperature regimes 279

Leaves
plant, diurnal electrical potentials of, under natural conditions 419
Leaves
influence of zinc smelter emissions on, of *Pinus sylvestris* and *Vaccinium* species as revealed by some morphological and ecophysiological indices 67
Lichen
dispersal in a population of *Hypogymnia physodes*, a 357
Lichens
the amount of Ni, Cr, Zn, Pb, Cu, Fe and Mn in some, growing in Switzerland 127
Light
influence of 'age', physiological state and level of, on the sensitivity of *Synechococcus lividus* to hydrogen peroxide 21
Light
growth, effect of quality of, on fluorescence characteristics of leaves of *Glycine max* 185
Litter layer
effect of, on natural regeneration of companion tree species in the Korean Pine Forest 53
Mangrove (*Avicennia germinans* (L.) L)
black, root metabolism in the, response to hypoxia 47
Membrane
outer mitochondrial, gamma-ray-induced biochemical changes in, from kidney bean hypocotyls 297
Meristem cells
influence of cell size on differentiation of, of root 273
Meristem cells
sucrose regulation of protein synthesis in, of pea root 253
Metabolism
in root of the black mangrove (*Avicennia germinans* (L.) L): response to hypoxia 147
Metal ions
germination responses of forest tree seed to acidity and 157
N-methyl-*N*-nitrosourea
induced mutations for aluminum tolerance after, treatment of fertilized egg cells in rice (*Oryza sativa* L.) 37
N-methyl-*N*-nitrosourea
induced variability for salt tolerance in rice (*Oryza sativa* L.) after treatment of fertilized egg cells with 29
Mitochondrial membrane
outer, gamma-ray-induced biochemical changes in, from kidney bean hypocotyls 297
Mn
the amounts of Ni, Cr, Zn, Pb, Cu, Fe and, in some lichens growing in Switzerland 127
Monazite-bearing soils
gamma activity of plants from, of the West Coast of Sri Lanka 449
Morphological indices
influence of zinc smelter emissions on leaves of *Pinus sylvestris* and *Vaccinium* species as revealed by some ecophysiological and 67
Morphology
isozyme similarity and genetic differences in, between Hyprosola, a high yielding, high protein mutant of chickpea (*Cicer arietinum* L.) and its parental cultivar 455
Morphometry
effects of artificial seawater on the ultrastructure and, of taro (*Colocasia esculenta*, Araceae) cells *in vitro* 245
Mutant
isozyme similarity and genetic differences in morphology between Hyprosola, a high yielding, high protein, of chickpea (*Cicer arietinum* L.) and its parental cultivar 455
Mutations
induced, for aluminum tolerance after *N*-methyl-*N*-nitrosourea treatment of fertilized egg cells in rice (*Oryza sativa* L.) 37
Ni
the amounts of Cr, Zn, Pb, Cu, Fe, Mn and, in some lichens growing in Switzerland 127
Nigella damascena
clastogenic effects of benzodiazepines in a seed test of 227
Nutrient uptake potential
and growth of *Azolla caroliniana* Willd. and *Salvinia rotundifolia* Willd. as a function of temperature 215
Oat crop
impact of simulated acid rain on yield of a field-grown 403
Olive trees
a comparative study of the leaf anatomy of, growing in the city and the country 105
Orange
'Valencia', photosynthetic characteristics in leaves of, grown under high and low temperature regimes 279

Orange trees (*Citrus sinensis* (L.) Osbeck)
activity of ribulose-1, 5-bisphosphate carboxylase in the leaf tissues of blight-affected 'Valencia' 45
Organelles
measurement of plant cells and, using computer-enhanced digitally processed images 177
Organic acid
effects of irradiance on, and amino acid levels in ladino clover 441
Oryza sativa L.
induced mutations for aluminum tolerance after *N*-methyl-*N*-nitrosourea treatment of fertilized egg cells in *Oryza sativa* L. 37
induced variability for salt tolerance in, after *N*-methyl-*N*-nitrosourea treatment of fertilized egg cells 29
Oxygen tensions
growth and cell proliferation in *Allium* roots at different 233
Ozone
interactive effects of simulated acidic fog and, on field-grown alfalfa 409
Parasites
root, *in vitro* seedling growth of the, *Alectra orobanchoides* and *Alectra vogelii* Benth. 341
Pb
the amounts of Ni, Cr, Zn, Cu, Fe, Mn and, in some lichens growing in Switzerland 127
^{210}Pb
plant accumulation and plant/soil concentration ratios of ^{210}Pb and, at various sites within a uranium mining and milling operation 203
Pea
sucrose regulation of protein synthesis in root meristem cells of 253
Peroxidase activity
in *Phaseolus vulgaris* seedling tissues and callus cultures: a comparison of genotypes and developmental stages 387
pH-response
on leaves and isolated cuticles of *Hedera helix* L. after wetting with artificial rainwater 349
Phaseolus vulgaris
peroxidase activity in, seedling tissues and callus cultures: a comparison of genotypes and developmental stages 387
Photoperiods
Bromus unioloides H.B.K. main shoot development under different night temperatures and 379
Photosynthetic characteristics
in leaves of 'Valencia' orange (*Citrus sinensis* (L.) Osbeck) grown under high and low temperature regimes 279
Physiological state
influence of 'age', and light level on the sensitivity of *Synechococcus lividus* to hydrogen peroxide 21
Phytochrome
stolen differentiation in *Cynodon dactylon* (L.) pers. mediated by 15
Pine
Scotch, effect of low level continuous gamma irradiation on vascular cambium activity in, *Pinus sylvestris* L. 165
Pine Forest
Korean, effect of litter layer on natural regeneration of companion tree species in the 53
Pinus sylvestris L.
influence of zinc smelter emissions on leaves of, and *Vaccinium* species as revealed by some morphological and ecophysiological indices 67
Pinus sylvestris L.
effect of low level continuous gamma irradiation on vascular cambium activity in, Scotch pine 165
Pisum sativum L.
the effects of inhibitors and promoters of poly(ADP-ribosyl)ation on cell arrest in G2 caused by trigonelline in roots of 463
^{210}Pb
plant accumulation and plant/soil concentration ratios of ^{210}Pb and, at various sites within a uranium mining and milling operation 203
Polarized
and non-polarized leaf reflectances of *Coleus blumei* 139
Pollen dispersal system
the development of a 325
Pollen tube growth
photometric quantification of, *in vitro*: a new method suited to determine the cytotoxicity of various environmental substances 305
Poly(ADP-ribosyl)ation
the effect of inhibitors and promoters of, on cell arrest in G2 caused by trigonelline in roots of *Pisum sativum* 463
Population
dispersal in a, of the lichen *Hypogymnia physodes* 357

Potato
impact of simulated acidic precipitation on quantity and quality of a field grown crop of 7
Precipitation
impact of simulated acidic, on quantity and quality of a field grown potato crop 7
Proliferation
of cells and growth in *Allium* roots at different oxygen tensions 233
Promoters
the effect of inhibitors and, of poly(ADP-ribosyl)ation on cell arrest in G2 caused by trigonelline in roots of *Pisum sativum* 463
Protein content
changes in, during growth phases under chronic gamma irradiation at a low dose-rate in *Synechococcus lividus* in culture 85
Protein synthesis
sucrose regulation of, in pea root meristem cells 253
Radiation
gamma, chronic, changes in protein content during growth phases under, at a low dose-rate in *Synechococcus lividus* in culture 85
Radiation
gamma, effect of low level continuous, on vascular cambium activity in Scotch pine, *Pinus sylvestris* L. 165
Radiation
gamma, effect of, on seed cloves of garlic (*Allium sativa* L.) at postharvest: reversion by exogenous growth regulators 1
Radiation
gamma, response of shortgrass plains vegetation to, — III. Nine years of chronic irradiation 193
Radiation
sparsely and densely ionizing, intervarietal variations in radiosensitivity of dry rice seeds irradiated with 431
Radiosensitivity
intervarietal variations in, of dry rice seeds irradiated with sparsely and densely ionizing radiation 431
Radishes
greenhouse-grown, effects of 'pristine' and 'industrial' simulated acidic preipitation on 239
Rain
the effects of simulated acid, with and without ambient rain on the growth and yield of field-grown soybeans ... 395
Rain
impact of simulated acid, on yield of a field-grown oat crop 403
Rainwater
artificial, pH-response on leaves and isolated cuticles of *Hedera helix* L. after wetting with 349
Red spruce
effects of aluminum on seedlings of, in solution culture 489
Reflectances
polarized and non-polarized, from leaf of *Coleus blumei* 139
Regeneration
natural, effect of litter layer on, of companion tree species in the Korean Pine Forest 53
Regulation
by auxin and ethylene of responses of *Acer negundo* seedlings to flooding of soil 329
Regulation
sucrose, of protein synthesis in pea root meristem cells 253
Regulators
growth, effect of gamma rays on seed cloves of garlic (*Allium sativum* L.) at postharvest: reversion by exogenous 1
Ribulose-1, 5-bisphosphate carboxylase
activity of, in the leaf tissues of blight-affected 'Valencia' orange trees (*Citrus sinensis* (L.) Osbeck) 45
Rice (*Oryza sativa* L.)
induced mutations for aluminum tolerance after *N*-methyl-*N*-nitrosourea treatment of fertilized egg cells in 37
Rice (*Oryza sativa* L.)
induced variability for salt tolerance in, after *N*-methyl-*N*-nitrosourea treatment of fertilized egg cells 29
Rice
intervarietal variations in radiosensitivity of dry seeds of, irradiated with sparsely and densely ionizing radiation. 431
Root
the effects of aluminum on, cap function and root development in *Zea mays* L. 91
Root
a system for controlling the environment of shoot and, for plant growth studies 365
Root development
lateral, in exotic cottons 499
Root meristem cells
influence of cell size on differentiation of 273

Root meristem cells
sucrose regulation of protein synthesis in, of pea 253
Root metabolism
in the black mangrove (*Avicennia germinans* (L.) L): response to hypoxia 147
Root parasites
in vitro seedling growth of the, *Alectra orobanchoides* and *Alectra vogelii* Benth. 341
Roots
the effect of inhibitors and promoters of poly(ADP-ribosyl)ation on cell arrest in G2 caused by trigonelline in, of *Pisum sativum* 463
Roots
growth and cell proliferation in, of *Allium* at different oxygen tensions 233
Salt tolerance
induced variability for, in rice (*Oryza sativa* L.) after *N*-methyl-*N*-nitrosourea treatment of fertilized egg cells .. 29
Salt tolerance
studies on *Atriplex rhagodioides* F. Muell. 119
Salvinia rotundifolia Willd.
growth and nutrient uptake potential of *Azolla caroliniana* Willd. and, as a function of temperature 215
Scenedesmus quadricauda
biochemical studies on the toxicity of linear alkylbenzene sulphonate to, in culture 311
Scotch pine
effect of low level continuous gamma irradiation on vascular cambium activity in, *Pinus sylvestris* L. 165
Seawater
artificial, effects of, on the ultrastructure and morphometry of taro (*Colocasia esculenta*, Araceae) cells *in vitro* . 245
Seed
germination responses of, of forest trees to acidity and metal ions 157
Seed cloves
effect of gamma rays on, of garlic (*Allium sativum* L.) at postharvest: reversion by exogenous growth regulation 1
Seed test
clastogenic effects of benzodiazepines in a, of *Nigella damascena* 227
Seedling
tissues and callus cultures of *Phaseolus vulgaris*, peroxidase activity in: a comparison of genotype and developmental stages 387
Seedling growth
in vitro, of the root parasites *Alectra orobanchoides* and *Alectra vogelii* Benth. 341
Seedlings
effects of aluminum on, of red spruce in solution culture 489
Seedlings
regulation of auxin and ethylene of responses of, of *Acer negundo* to flooding of soil 329
Seeds
dry, intervarietal variations in radiosensitivity of, of rice irradiated with sparsely and densely ionizing radiation 431
Sensitivity
influence of 'age', physiological state and light level on the, of *Synechococcus lividus* to hydrogen peroxide 21
Shoot
main, development of, in *Bromus unioloides* H.B.K. under different photoperiods and night temperatures 379
Shoot
a system for controlling the environment of root and, for plant growth studies 365
Shortgrass plains
response of vegetation on, to gamma irradiation —III. Nine years of chronic irradiation 193
Simulated acidic precipitation
effects of 'pristine' and 'industrial', on greenhouse-grown radishes 239
Simulated acidic precipitation
impact of, on quantity and quality of a field grown potato crop 7
Smelter emissions
zinc, influence of, on leaves of *Pinus sylvestris* and *Vaccinium* species as revealed by some morphological and ecophysiological indices 67
Soil
regulation by auxin and ethylene of responses of *Acer negundo* seedlings to flooding of 329
Soils
monazite-bearing, gamma activity of plants from, of the West coast of Sri Lanka 449
Solution culture
effects of aluminum on red spruce seedlings in 489
Soybean
gaseous compounds of tissue cultures of: carbon dioxide and ethylene evolution 223

Soybeans
the effects of simulated acid rain with and without ambient rain on the growth and yield of field grown 395
Spruce, red
effects of aluminum on seedlings of, in solution culture 489
Sri Lanka
gamma activity of plants from monazite-bearing soils of the West Coast of 449
Stolon
differentiation in *Cynodon dactylon* (L.) pers. mediated by phytochrome 15
Sucrose
regulation of protein synthesis in pea root meristem cells 253
Switzerland
the amounts of Ni, Cr, Zn, Pb, Cu, Fe and Mn in some lichens growing in 127
Synechococcus lividus
influence of 'age', physiological state and light level on the sensitivity of, to hydrogen peroxide 21
Synechococcus lividus
changes in protein content during growth phases under chronic gamma irradiation at a low dose-rate in, in culture 85
Synthesis
sucrose regulation of, of protein in pea root meristem cells 153
Taro (*Colocasia esculenta*, Araceae)
effects of artificial seawater on the ultrastructure and morphometry of *in vitro* cells of 245
Temperature
effects of, on tyriazine-resistant weed biotypes 473
Temperature
growth and nutrient uptake potential of *Azolla caroliniana* Willd. and *Salvinia rotundifolia* Willd. as a function of 215
Temperature
photosynthetic characteristics in leaves of 'Valencia' orange (*Citrus sinensis* (L.) Osbeck) grown under regimes of high and low 279
Temperatures
Bromus unioloide H.B.K. main shoot development under different photoperiods and night 379
Tissue cultures
soybean, gaseous compounds of: carbon dioxide and ethylene evolution 223
Tissues
leaf, activity of ribulose-1, 5-bisphosphate carboxylase in the, of blight-affected 'Valencia' orange trees (*Citrus sinensis* (L.) Osbeck) 45
Tissues
seedling, peroxidase activity in *Phaseolus vulgaris* callus cultures and, a comparison of genotypes and developmental stages 387
Tolerance
salt, studies on *Atriplex rhagodioides* F. Muell 119
Toxicity
biochemical studies on the, of linear alkylbenzene sulphonate to *Scenedesmus quadricauda* in culture 311
Tree seed
germination responses of forest, to acidity and metal ions 157
Tree species
companion, effect of litter layers on natural regeneration of, in the Korean Pine Forest 53
Trees
olive, a comparative study of the leaf anatomy of, growing in the city and the country 105
Trees
'Valencia' orange, activity of ribulose-1, 5-bisphosphate carboxylase in the leaf tissue of blight-affected, (*Citrus sinensis* (L.) Osbeck) 45
Triazine-resistant weed biotypes
effects of temperature on 473
Trigonelline
the effect of inhibitors and promoters of poly(ADP-ribosyl)ation on cell arrest in G2 caused by, in roots of *Pisum sativum* 463
Ultrastructure
effects of artificial seawater on the morphometry and, of taro (*Colocasia esculenta*, Araceae) cells *in vitro* 245
Uranium
plant accumulation and plant/soil concentration ratios of ^{210}Pb and ^{210}Po at various sites within a mining and milling operation 203

Vaccinium
influence of zinc smelter emissions on leaves of *Pinus sylvestris* and *Vaccinium* species of, as revealed by some morphological and ecophysiological indices 67
'Valencia' orange (*Citrus sinensis* (L.) Osbeck)
photosynthetic characteristics in leaves of, grown under high and low temperature regimes 279
'Valencia' orange trees (*Citrus sinensis* (L.) Osbeck)
activity of ribulose-1, 5-bisphosphate carboxylase in the leaf tissues of blight-affected 45
Vascular cambium activity
effect of low level continuous gamma irradiation on, in Scotch pine, *Pinus sylvestris* L. 165
Vegetative growth
aerial greenbug damage on the, of two barley cultivars 263
Weed biotypes
triazine-resistant, effects of temperature on 473
Xylogenesis
evidence that auxin-induced, in *Lactuca* explants require calmodulin 289
Yield
the effects of simulated acid rain with and without ambient rain on the growth and, of field-grown soybeans 395
Yield
impact of simulated acid rain on, of a field-grown oat crop 403
Zea mays L.
the effects of aluminum on root cap function and root development in 91
Zinc smelter emissions
influence of, on leaves of *Pinus sylvestris* and *Vaccinium* species as revealed by some morphological and ecophysiological indices 67
Zn
the amounts of Ni, Cr, Pb, Cu, Fe, Mn and, in some lichens growing in Switzerland 127
